ROLAND OFFERS FREE TM-2 TRIGGER MODULE WITH THE PURCHASE OF ANY TD-25 SERIES V-DRUMS KIT

Exclusive Offer Available in Europe and the United States

Los Angeles, CA, December 12, 2018 — Just in time for the holiday season and new year, Roland is offering an exclusive promotion for creative drummers. Customers who purchase a TD-25K, TD-25KV, or TD-25KVX V-Drums kit between now and January 31, 2019, are eligible to receive a TM-2 Trigger Module and bundled accessories. This offer is valid on products purchased through authorized Roland dealers in Europe and the United States only.

Each V-Drums kit in Roland's TD-25 series is packed with over 200 dynamic drum and percussion instruments that respond just like their acoustic counterparts, providing ultra-expressive sound and playability for practice, recording, and live performance. But there are times when drummers need extra sounds that aren't on board, such as a percussive sound on the backbeat, the super low of an 808 kick layered over an acoustic kick, or even vocals and backing tracks that can't be recreated on the kit.

With Roland's TM-2 Trigger Module, players can fill in these gaps quickly and easily. The compact module comes with a large built-in library of drum and percussion sounds, and can also be loaded with user samples for maximum versatility while performing.

When used with a TD-25 series kit, the TM-2 allows players to layer additional sounds with the kick, snare, or any drum or cymbal. And by adding extra trigger pads, the TM-2 can be used to expand the number of sounds available from the V-Drums kit.

The TM-2 module works equally well with any acoustic drum kit. Gigging players can add the TM-2 and some Roland RT-series drum triggers to enhance their acoustic drums with layered electronic sounds and samples. Or by incorporating one or more Roland trigger pads into their kit, they're able to access a nearly endless selection of extra acoustic and electronic sounds for any song or style.

Terms and conditions apply. For full information about this offer, please visit <https://www.roland.com/us/td-25-offer/>.
