Hamamatsu, Japan, August 31, 2017 — Roland Corporation today announced details for “The Future. Redefined. Product debuts are scheduled for percussion, piano, wind, organ, and guitar categories, with special events planned in celebration of the legendary D-50 Synthesizer’s 30th anniversary. The latest news and information about Roland’s special six-day event are available beginning August 31, 2017, on the festival’s dedicated web page, Roland.com/TFR. Music lovers and musicians from all over the world are invited and encouraged to participate.

The September Festival 2017 officially begins at 7:00 (UTC), September 7, with the unveiling of Roland’s newest digital wind instrument—a product for beginning wind players designed to both inspire and enhance musical creativity. Successive new product introductions will follow through September 14, including a new guitar-related product from BOSS on September 8, two new digital organs on September 12, two new electronic percussion products on September 13, and four new digital pianos on September 14.

A special 30th-anniversary celebration of the legendary D-50 Synthesizer, Roland’s first entirely digital synthesizer, begins September 9, with the launch of Roland’s dedicated D-50 anniversary web page. Exclusive interviews with the engineers who developed the D-50 and tributes from a roster of D-50 fans, including top artists and producers, are all slated in honor of the D-50’s legacy.

In addition to multiple new product releases and the D-50 celebration, Roland will present the “One Minute Challenge,” a fun online game featuring music and gear trivia.
