BOSS ANNOUNCES TU-02 CLIP-ON TUNER

*Trusted BOSS Tuning Performance for Guitar, Bass, Ukulele, and
Other Stringed Instruments*

Hamamatsu, Japan, January 18, 2021 — BOSS announces the TU-02 Clip-On Tuner, the latest addition to the company's industry-leading lineup of instrument tuners. BOSS's famous tuner range includes numerous solutions for all types of musicians and educators, from handheld and clip-on models to the pedal-based TU-3 used by top touring professionals around the world. Designed for guitar, bass, ukulele, and other stringed instruments, the TU-02 delivers best-in-class performance and the latest BOSS tuning features.

With its bright, high-contrast color display, the TU-02 offers easy visibility for quick tuning in any environment. The rugged clip provides secure mounting on an instrument's headstock, and the display can be swiveled for optimum viewing.

Users can choose from standard tuning modes for guitar, 4- and 5-string bass, and ukulele, or chromatic mode for alternate tunings and other stringed instruments. Flat tuning over a range of two semitones down is supported, perfect for players who like to tune low for a heavier sound. A single CR2032 lithium battery provides continuous runtime up to 24 hours, and the tuner automatically powers off when idle to conserve battery life.

To learn more about the TU-02 and the entire BOSS tuner lineup, visit www.boss.info.

About BOSS

BOSS, a division of Roland Corporation, has achieved legendary status among guitarists, bassists, and vocalists with a diverse, world-leading product lineup of creative tools with exceptional sound, intuitive control, and rugged durability. Since 1977, BOSS's famous compact pedals have been used daily by everyone from beginners to touring professionals, with over 125 unique models introduced and over 16 million units sold to date. BOSS also leads the way with innovative gear in numerous other categories, from amplifiers, multi-effects processors, and loopers to wireless systems, vocal effects, tuners, metronomes, rhythm machines, recorders, and more.
